#Profile

Finance graduate and former business owner transitioning into web development and fintech, combining analytical finance and accounting experience with practical front-end development skills (HTML, CSS, JavaScript, React). Managed full P&L, streamlined billing and reporting processes, and delivered customer-facing solutions, now focused on building clean, responsive web applications that support data-driven decision making. Self-directed learner actively expanding into Python, SQL, and data analysis to contribute to modern financial and fintech teams.

#GitHub Projects

##CV Website - (Apr-Jun 2026)

Responsive curriculum vitae site built with semantic HTML, modular SCSS, and JavaScript-powered navigation and layout logic. Provides accessible navigation and includes print-specific styling intended to improve printed formatting. Engineered with a progressive enhancement workflow, mobile-first responsive styling, and fluid sizing.

📄 [Code: https://github.com/ayx234/my-cv](https://github.com/ayx234/my-cv)

##React Tic Tac Toe - (Jun 2025)

Classic game implemented with React components and state to manage turns, win conditions, and reset, showcasing understanding of component structure, conditional rendering, and stateful interactions.

##Productivity & OS

- Microsoft Office
- Excel
- Word
- Power Point
- Windows
- macOS
- Linux

##Soft Skills

- Adaptability and ability to work in a dynamic environment
- Creative thinker
- Analytical thinker
- Attentive to details
- Strong verbal, written, and interpersonal communication skills

##Languages

- Arabic – **fluent**
- English – **fluent**
- Spanish – **advanced**
- French – **beginner-intermediate**

##Work Experience & Projects

##FreeCodeCamp Certifications, Short-Term Role, And Projects

📅 2023–Present

- Completed multiple FreeCodeCamp certifications while building front-end projects to consolidate JavaScript and React fundamentals.
- Brief short-term role concluded due to cultural mismatch; continued portfolio development and targeted job search.

##Self-Directed Web Development Study

📅 2021–2023

- Followed structured online curricula, documentation, and coding challenges to build a foundation in HTML, CSS, JavaScript, with emphasis on responsive UI and clean code.

##Time Out Café

Operations Manager / Co-Owner

📍 Qatif - Saudi Arabia 📅 2017–2021

- Launched and ran a café, managing full P&L, budgeting, and cash flow while overseeing day-to-day operations and customer experience.
- Prepared monthly financial reports and sales forecasts to guide pricing, promotions, and cost control, improving profitability and reducing waste over time.
- Implemented purchasing and inventory controls that reduced stock-outs and minimized expired inventory.
- Hired, trained, and scheduled staff and supervised local marketing campaigns to increase repeat customers and build brand loyalty.

##Entrepreneurial Web Ventures

📅 2015–2017

- Built and ran two web-based businesses (commission-based apartment listings and an e-commerce t-shirt store), gaining experience with simple websites, online marketing, and basic analytics.

##Schlumberger Middle East S.A.

Accounts Receivable Accountant

📍 Khobar - Saudi Arabia 📅 2014–2015

- Minimized billing cycles by coordinating with operations teams to complete required documentation quickly and accurately so invoices could be issued without delay.
- Injected complete invoices into customers' payment systems and tracked their progress through approval, helping secure timely cash collection for high-value projects.
- Investigated and resolved invoicing issues raised by customers by collaborating with internal experts and operations teams, reducing disputes and rework.
- Created consolidated reports on unbilled revenue and billed-but-unpaid jobs, outlining explanations, action items, and deadlines for each case.
- Performed monthly reconciliations of accrued, billed, and operational revenue and presented status, risks, and progress to management.

##Scholarship, Further Study, And Transition

📅 2012–2014

- Scholarship for planned master's study; completed GMAT and admissions work, but U.S. visa was denied; subsequent period included job search and a short accounting role.

##Pan Gulf

Accountant

📍 Khobar - Saudi Arabia 📅 2011–2012

- Managed accounts payable, accounts receivable, inventory costing, petty cash, payroll, and other employee payments as part of a rotational accounting role.
- Produced daily cash flow reports to support operational decision-making and liquidity management.
- Reconciled bank accounts
- Coordinated with external auditors
- Supported monthly book closing and financial statement preparation, discussing variances and trends with management.

#Education

##Web Development

Certifications (FreeCodeCamp):

- Front-End Development Libraries (2025)
- JavaScript Algorithms & Data Structures (2024)
- Responsive Web Design (2023)

Learning roadmap:

- Python
- Pandas
- Basic SQL
- introductory data analysis and visualization

##Bachelor Of Science In Finance

The University of Tampa

- Tampa, Florida, USA Dec 2010 GPA: 3.16/4.00

Degree coursework:

- Financial & Managerial Accounting
- Financial Management
- International Financial Management
- Financial Markets & Institutions
- Money & Banking
- Economics (Micro & Macro)
- Managerial Statistics
- Operations Management
- Marketing
- International Business
- Oral Communications
